

How to Make a Steve and Creeper full head mask

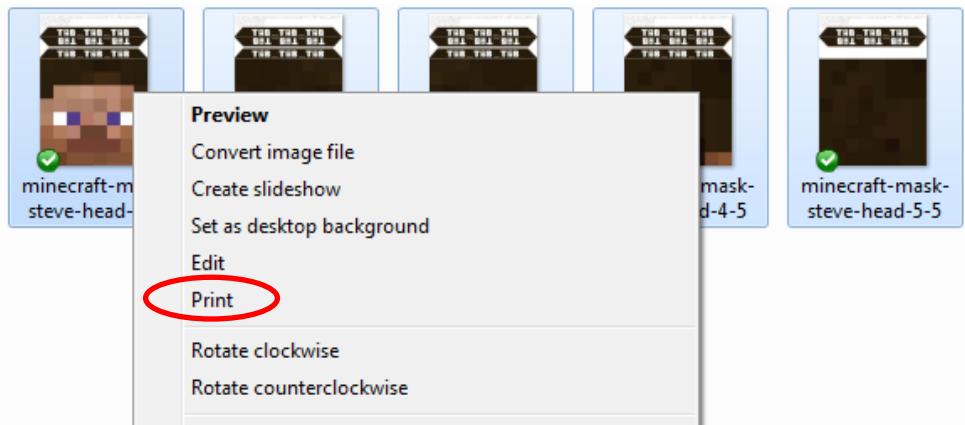

Instructions Step by Step

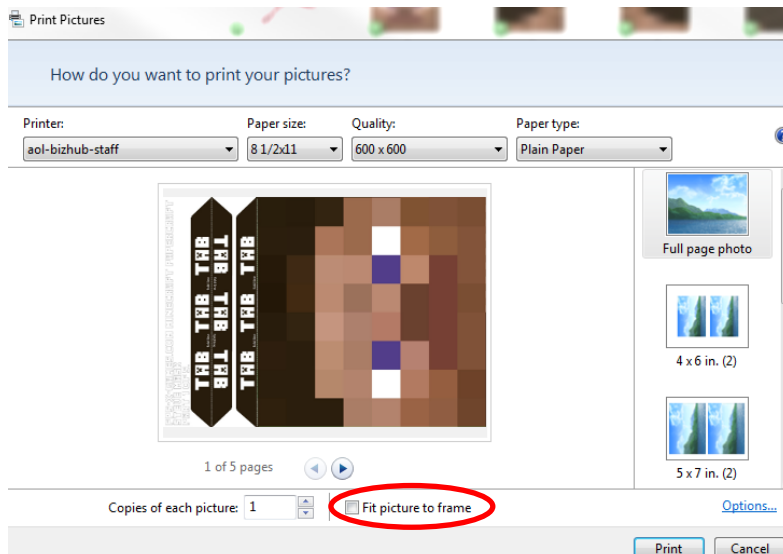

What you will need

- Card Stock Paper
- Glue Stick
- Scissors
- X-acto Knife
- Cardboard or a different cutting surface

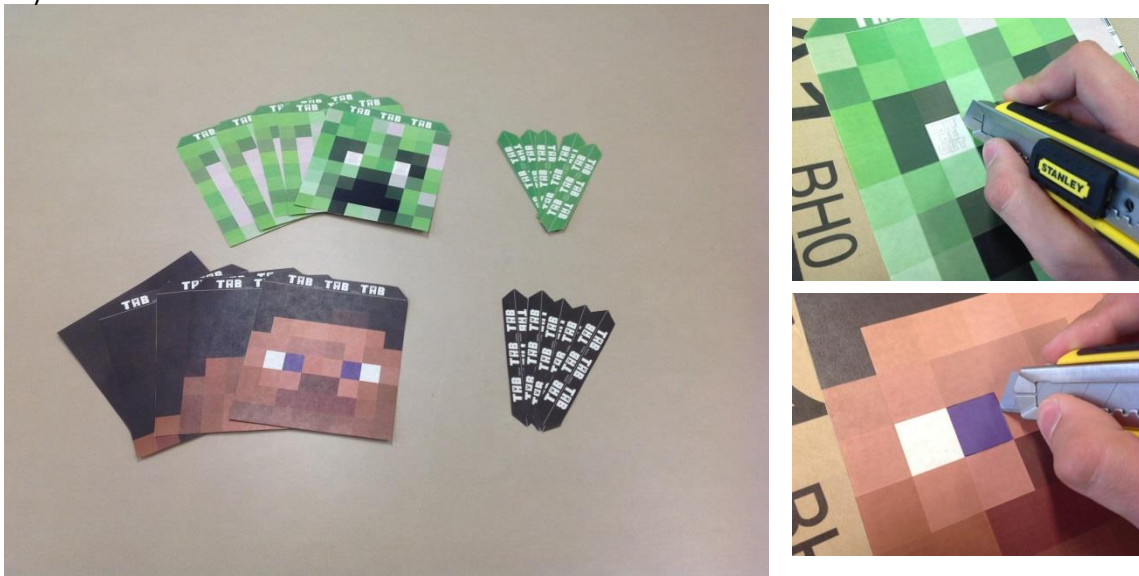

1) Download and then select all files for mask, right click and Print.

2) Make sure you uncheck "Fit picture to frame" (Put Cardstock Paper in) then Click Print

3₁) Once printed, cut all pieces out. Then cut out eye holes with an X-acto knife

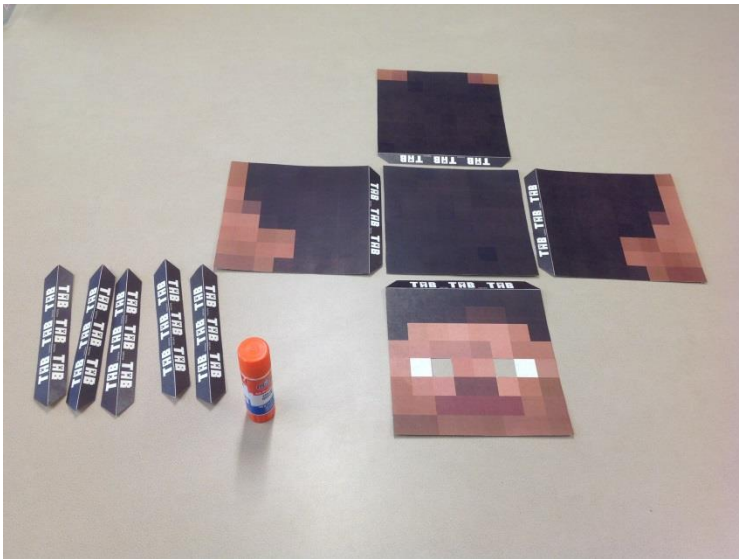

4) Next, lightly scar the tabs dotted lines with the X-acto knife so that it bends easy (do not cut dotted lines all the way through, just lightly)

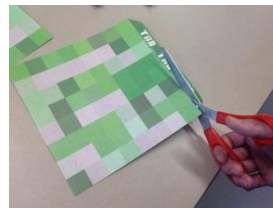

5) Bend all tabs

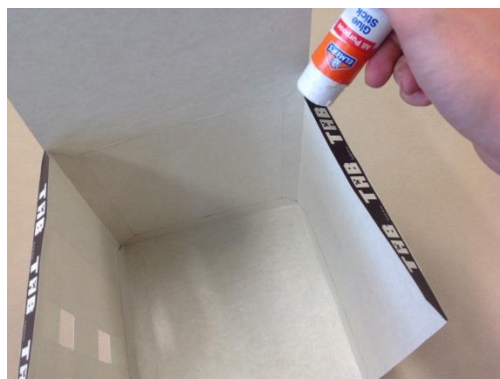

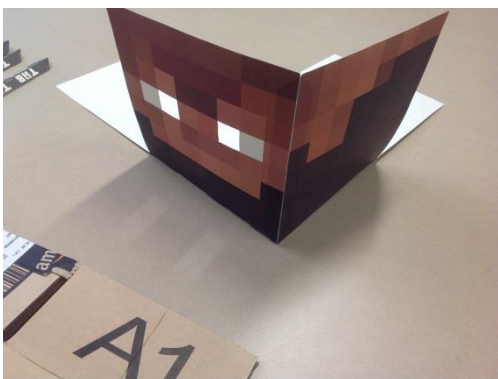

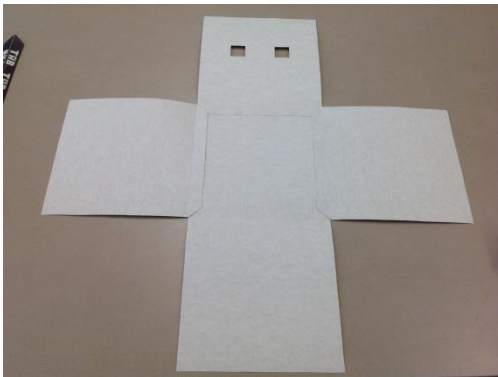

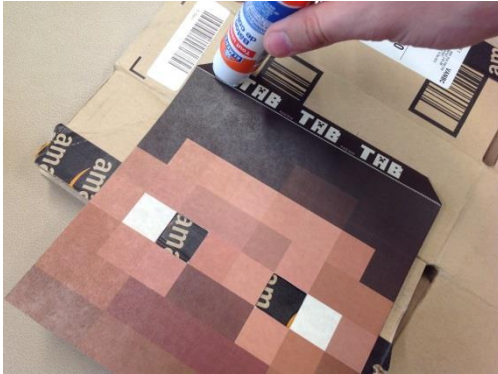

6) Lay out all the sides in the appropriate places

Exception – Creeper template has a tab you need to cut off for the top

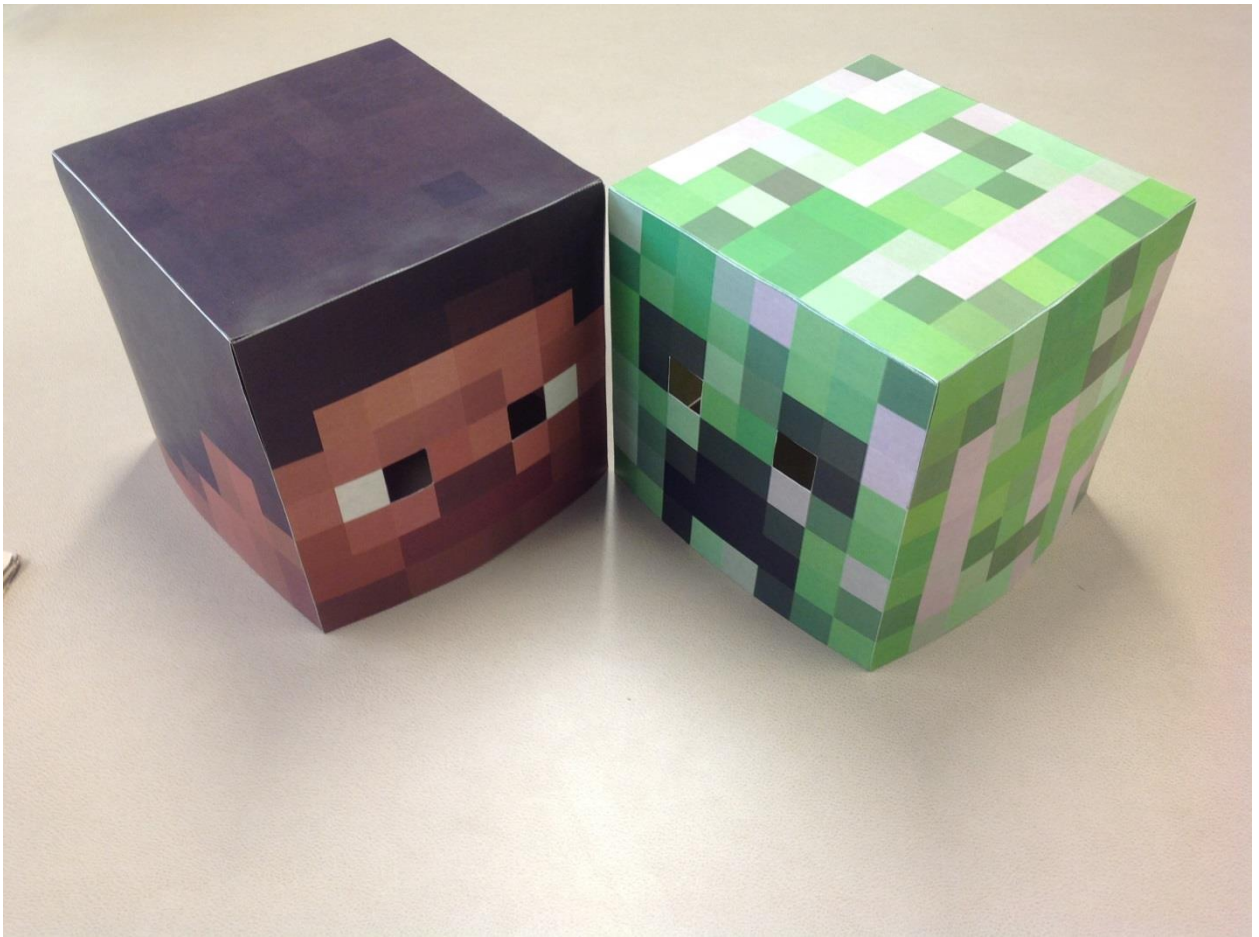

7) Start Gluing all sides and tabs together

*Note: you may have 1 extra tab

8) Finished Products

Enjoy
