

## A: GET YOUR ADOBE ID

### Register for a free Adobe ID

If you have not already done so, you will need to sign up with Adobe in order to authorize your OverDrive app.

#### 01 Connect to the Internet

The easiest method is to use a personal computer or laptop that is connected to the internet. Optionally, you can use your mobile device: Make sure your device's WiFi is set up and turned on. Or, if you have a data plan, you can connect your device via data.

#### 02 Browse to [www.adobe.com](http://www.adobe.com)

Use a browser on your device or computer (i.e., Safari, Internet Explorer, Chrome, Firefox) to go to Adobe's website. Click/tap on [Sign In](#), located in the upper right corner of the screen.

#### 03 Register

Click/tap on [Don't Have an Adobe ID?](#) below the Sign In button. Fill in the requested information and then click/tap [Create](#).

#### 04 Write It Down

Make sure you write down or save your Adobe ID and password, because you'll need it to authorize your OverDrive app!

## B: GET THE OMC APP

### Download OverDrive

This is the app you will be using to read e-books or listen to audiobooks from the library system.

#### 01 Open the Play Store

On your device, find and tap on the [Play Store](#) icon.

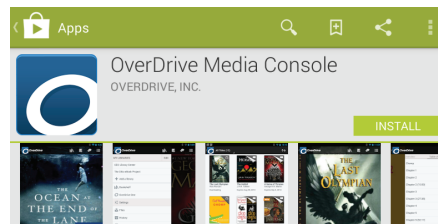

#### 02 Search

Within the Play Store, search for the OverDrive Media Console app.

#### 03 Download

In the search results, tap on [OverDrive Media Console](#) and then tap the [INSTALL](#) button. A dialog box will pop up called "App Permissions". Tap the [ACCEPT](#) button.

## C: AUTHORIZE IT!

### Authorize OverDrive

In order to read library e-books or listen to library audiobooks, you will need to authorize OverDrive with your Adobe ID.

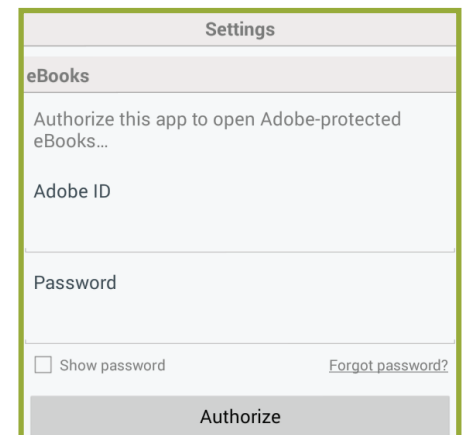

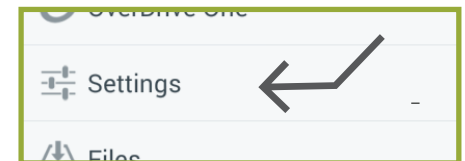

#### 01 Open the App

On your device, find and tap on the OverDrive app icon.

#### 02 Sign In

Once the app has loaded, tap on the blue OMC icon in the upper left corner of the app and go into [Settings](#), fill out the form, and tap the [Authorize](#) button.

## D: ADD YOUR LIBRARY

### Add the TNRD Library

To get e-books and audiobooks from the Library To Go, you will first need to find and add your library.

#### Search

To access the OverDrive menu, tap on the blue OMC icon in the upper left. Tap [Add a Library](#) to bring up the search function.

#### Browse

Tap on the button that says [Browse for Libraries](#). Tap on [Canada](#), and then tap on [British Columbia](#). This will bring up a list of all library systems in BC. Scroll down to the T's until you find [Thompson -Nicola Regional District](#). Tap on that. Then tap on [British Columbia Libraries](#). This will add BC Libraries to your OverDrive menu for future access, and bring you to the British Columbia Libraries website.

#### Sign In

Once you are in the British Columbia Libraries site on your device, tap on [Sign In](#) in the upper right corner. You will need to select your library system (Thompson-Nicola) and then enter your library card number (found on the back barcode on your library card) and then tap the [Sign In](#) button.

## E: GET A BOOK!

### Download Titles

This is a very basic introduction to getting library e-books and audiobooks. For a more detailed set of instructions and handy tips, see our [OverDrive for Android Part 2](#) brochure or read through the Help section on the BC Library To Go website.

#### Browse Titles

If you've been following the previous steps to set up OverDrive, you'll already be in the BC Libraries website and signed in. On the front page, you can view recent Hot Titles and New Arrivals. Audiobooks have a headphones icon in the upper right corner, and e-books have a little book icon in the upper right corner. Dark headphones/book icons are a sign that the title is available. Faded icons show titles that are checked out and can be placed on hold.

#### Search

You can search the online catalog by tapping the magnifying glass icon towards the top of the page.

#### Check it Out!

Once you've found an available title, tap on the cover to enter the individual book page. There will be a large [Borrow](#) button. Tapping on that will move the book into your online Bookshelf where you can then tap on [Download](#). This will download the title to your OverDrive device Bookshelf. Once loaded, tap on the blue OMC icon in the upper left corner to bring up the OverDrive menu. Tap [Bookshelf](#) and then tap the cover of the book you just downloaded. Enjoy!
