E-STAT Help Sheet

An interactive tool about society and the economy in Canada

SURREY LIBRARIES

E-STAT is an interactive tool about society and the economy in Canada and is available only to educational institutions. Includes CANSIM, historical and current censuses and archived Elections Canada data. **Available in library only at all Surrey Libraries**.

What is CANSIM?

CANSIM is Statistics Canada's key socioeconomic database. Updated yearly on E-STAT, CANSIM provides fast and easy access to a large range of statistics available in Canada.

What is a census?

A census is a survey of the entire population that produces a "snapshot" of data from one specific point in time.

Need help using E-STAT?

Find help in the left hand navigation menu:

E-STAT
- About E-STAT
- What's new in E-STAT
- Table of contents
- User guides and lesson plans
- Search CANSIM in E-STAT
- Search Censuses in E-STAT
- Help/Frequently asked questions
- May I copy this?

Find user guides for:

- CANSIM
- Census data

Find intermediate and secondary lesson plans for:

- CANSIM
- Census data

Browse FAQs for answers to frequently asked questions.
