

Downloading OverDrive eBooks to your Android Phone or Tablet

Step 1: From the home screen, tap on “Play Store” and search for “OverDrive Media Console”. Tap the app from the search results listing to open its page.

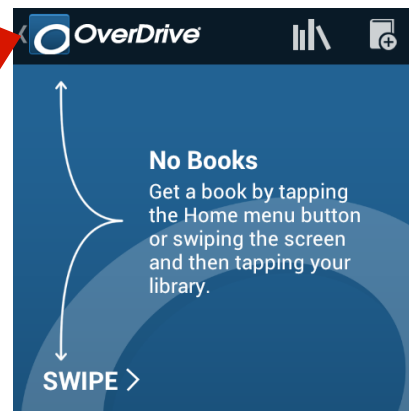

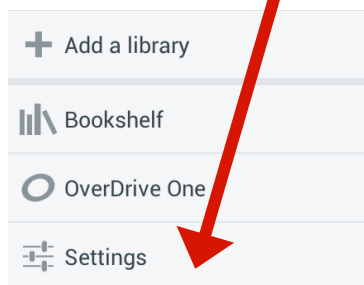

Step 2: Tap the “INSTALL” button to start the installation process. You will be presented with a screen of the app’s permission requests for access on your device. You may tap the “ACCEPT” button if you choose to agree to this access to allow the app to function. The app will then start to download and install.

Step 3: You will receive a notification once the app has successfully installed. Tap the “OPEN” button to load the app. You will have to locate the app from your apps screen in the future and tap its icon to open the OverDrive app.

Step 4: Swipe left to right as indicated or tap the Options button in the top left corner of the screen to display a menu of additional settings and options. Tap “Settings” to manage the app.

Step 13: You will be directed to your Bookshelf page. Tap the **“Download”** button.

Step 14: The eBook will begin downloading in the OverDrive app. You can view the progress in your notifications area.

Step 15: You will receive a notification once the eBook has finished downloading. Tap the **Options** button, and then, to see a list of your titles, tap **“Bookshelf”**. You may now tap the cover of the title to begin reading it.

Step 16: You can tap the center of the screen to bring up additional options when you have an eBook open. You can set font size, choose a different font, bookmark pages, and navigate between chapters using these options.

Step 17: To return a title early, press and hold your finger over the cover of the book. You will then be able to tap the **“Return”** button if you wish to return the eBook early and make it available for checkout by other patrons or the **“Delete”** button if you wish to only remove the eBook file from your device.
